The News.

The Railroad Convention which has been in session at Buffalo, for a day or two past, endeavoring to compromise the difficulties between the New York Central and New York and Erie Rail Roads, has finally adjourned without effecting anything.

The democrats of Maine met in Convention on the 30th of June, endorsed Lecompton and Buchanan, and nominated candidates for State officers.

A collision, attended with loss of life, took place between two schooners, off Cape Cod, on Wednesday last.

We have a report from Kansas that Governor DENVER, the *fifth* Democratic Governor of Kansas, is about to follow in the footsteps of his predecessors, and give up his thankless office.

A Vigilance Committee in Florida is reported to have hung several prominent citizens, but the report is hardly credited.

The New York Produce Market, yesterday, was unchanged and dull. Our own market was rather more active, and prices a shade lower.

We had another hot day, yesterday, with a cooling shower in the evening.

Preparations for the Fourth of July are going on with great vigor, in our City, and the celebration promises to be a fine one.

ANOTHER TURN.—The *National Union* has undergone another political transformation.—When it came around to an 'alf and 'alf position respecting the division of the Democracy on the Lecompton issue, it hauled down the names of Messrs. Dougherty & Reynolds, Administration candidates, for Treasurer and Superintendent of Public Instruction. In its issue of yesterday, however, those names are again at the mast-head, and we suppose, unless they should be down again this morning, the *Union* may once more be classed as an administration paper. The Douglas papers have rejoiced over the supposed conversion of the *Union* to soon.—*Chicago Dem*, July 1.

We are somewhat curious to see whether the *News* will approve, or follow this new lead of the Chicago *National Union*."

Narrow Escape of a Railroad Train from a Fearful Wreck.

A Niagara Falls correspondent of the New York *Times* writes:

A slide occurred on the railroad along the gorge between Lewiston and Suspension Bridge, on Friday evening last, under circumstances that causes one to realize how constant and imminent are the perils of travel by rail, even under the most favorable circumstances. This road, for most of the distance, is on the very brink of the gorge, in some places hundreds of feet above that river, sometimes inserted into the perpendicular ledge, with large masses of rocks suspended fearfully over the track. At a point about midway between the Falls and Lewiston, where the track lies about two hundred feet above the river, and where the descent is nearly perpendicular, about seventy feet of the road bed slid off. The cabhouse, perpendicular rail, no broader at the base than at the top, which was rolled on to make things safe, began to give way, (as the trackmaster assured me,) nearly or quite a week before. The giving out of the whole structure had been looked upon as certain for some time, and yet cars filled with passengers continued to be drawn at least twice a day. Such recklessness is without a parallel in railway management.

A gentleman who was too late for the train, started to walk that evening over the track from Lewiston to Suspension Bridge. It was he who first discovered the slide, but he came within a hair's breadth of going down the chasm itself. Not dreaming of anything of the sort, talked to the very brink before he discovered by the dim light of the moon, the fearful e of the case. Another step and it would have been the last of him. His retrograde movement was both timely and rapid. The slide had probably taken place immediately on the passing over of the train but a short time before, for the rocks were then tumbling and crashing into the abyss, and the gentleman felt sensibly the earth giving way under his feet as he sprang back.—No mortal man can tell how near the destruction and total annihilation that train of cars came. Its own weight and motion, doubtless, started the avalanche. Its speed—an instant of time—a finger's weight—may have been all that stood between eternity and every soul on board. But the train did pass, the pleasure seeking passengers all unconscious of the danger they had escaped. And yet for days previous the trains had been exposed to this danger, and an officer in charge of the road assured me that he knew it. When informed at the office in Suspension Bridge that a slide had occurred, they knew precisely where to locate it, and said they had been expecting it for a week, and still had been sending out trains each way twice a day all the while. Words cannot express the culpability of those in immediate authority. A presentation by the Grand Jury of Niagara County will probably attempt it.

DAMAGE BY LIGHTNING.—A despatch in the Worcester Spy, dated Norwalk, Conn., June 27th, says that the lightning struck a large livery stable there on Saturday night, entirely consuming it. The fire then spread to an adjoining stable, which was also consumed, together with a large iron foundry and store-house. The hotel to which the stables were attached was slightly damaged. One man and several horses were killed. Loss from $8,000 to $7,000.

The State Prison at Concord, N. H., was struck by lightning on Saturday noon. One bolt started down the lightning rod, but the connection being defective, the lightning passed into the building through the stone walls, and then, following the steam pipes, it went into the cook-room, knocking the cook backwards, breaking considerable crockery, stunning one of the prisoners in his cell, and then disappeared.

CATTLE KILLED BY THE HEAT.—The Hartford Conn., *Times* of Saturday evening says: Friday and Saturday, June 25 and 26, have been the hottest days known in many of June, in this vicinity, for many years. Three valuable working cattle, belonging to Col. Colt, and employed in the work now going on for the improvement of the South Meadows, were killed yesterday by the heat of the weather. They had not been worked hard, having drawn only half loads, and were taken off at 11 o'clock in the forenoon, with all the other cattle at work in the neighborhood, when out-door work was suspended in consequence of the heat. Some of the cattle were put in the stable, and others turned into the field. In the afternoon one of those which had been in stable melted down, and two of the number which were out of door also sunk on the same day. The mercury when exposed to the sun, yesterday reached 125 degrees.

HOT WEATHER IN NEW YORK.—The New York Sunday *Herald* groans over the hot weather in that city in the following terms:

"The weather in this city was furiously hot yesterday, and up to last night there were no signs of abatement. The mercury in cool places ranged from 96 to 97 degrees, and those who were exposed to the sun's rays must have experienced a temperature of 100 degrees and over. There was scarcely any breeze stirring, and not the sky to moderate the intensity of This is summer with a vengeance. very warm weather in this latitude gin before the middle of July, and rarely runs up into the nineties in have caught it this year, however, rong, and must bear it as well as we

SHIPMENTS FOR JUNE.—During the past ten days the produce market has been a little more brisk. There has been forwarded from this station during June—mostly since the 15th:

Wheat,	16,007 bus.	Wool	1,180 lbs.
Oats,	6,330 "	Sundries.	31,000 "
Barley,	781 "	Hides,	2,800 "
Flour,	6 bbls.	Potatoes,	488 bus

Besides this, Mr. Anderson, the station agent, to whom we are indebted for the above figures, informs us that there are at least 10,000 bushels now in the warehouses, ready for shipment. —*Waupun Times*, June 30.

JOBBING TRADE.—The sidewalks of Congress, Federal, Milk, and other business streets, show for their whole extent hardly a case or bale of goods. This shows the extreme dullness of the jobbing trade. Some anticipate more life in business in a month or two, but most persons look for very small trade the ensuing autumn. New England's manufacturing towns, are in too depressed circumstances to be large purchasers, while the West are so situated that they cannot buy largely or even pay up their old indebtedness in many instances.—*Boston Traveller*, June 28.

A RICH WAIF.—A Hamburg brig called the Wisch, left the port of St. John's, Newfoundland, on Tuesday, June 3rd, laden with seal oil, for a port in Great Britain, and getting ashore in a calm the same night, on a point of land called Blackhead, a few miles to the southward of St. John's, was abandoned. She was brought back to St. John's the next morning by some fortunate Blackhead fishermen. The vessel and cargo are supposed to be worth £4,500 ($22,500.) A "windfall" for the fishermen occasioned by a lack of wind.

WHERE IS HE.—Charles A. Merritt left here in January, and was last heard from by his wife, March 21st. He was then a deck hand on the steamer *Pennsylvania*, or *Pennsylvania*, (or some such name) and was at Pittsburgh. He wrote that he was going around to St. Paul, and expected to be home in May, but has not been heard from since. He is a Frenchman, speaks broken English, and is of a sandy complexion.

Papers along the line of navigable rivers, and the lakes, will confer a favor on his wife by copying the above.—*Cleveland Review.*

Excursion Trains.

The Committee of Arrangements for the Fourth, request us to ask the managers of the several Rail Roads leading into our city, to run Excursion Trains on the morning of the Fifth, so as to enable such of our country friends as feel disposed to visit our city on that day and take part in the celebration here, to do so conveniently and cheaply.

THE CELEBRATION—ORDER OF THE DAY.—In our columns, this morning, will be found the Order of the Day for the celebration of the approaching Anniversary of American Independence. Should the weather be favorable, we anticipate a very handsome display.

FATAL ACCIDENT—MAN KILLED!—An accident occurred on board the schooner *Juniata Patton*, while loading in the river for Oconto, yesterday forenoon, at about 11 o'clock, by which a man named WILLIAM ROACH was instantly killed.—ROACH, who resided in this city, where he leaves a wife and five children, had been employed as a temporary hand upon the vessel while in port, and was assisting in hoisting a cow on board when the accident happened. The cow was about being let down upon the deck of the vessel when she swung around against ROACH, knocking him into the hold. His head struck upon a heavy piece of timber, breaking his neck and fracturing the skull at the same time. He expired instantly, and was afterwards carried to the dead house. Upon hearing of the accident his wife became almost distracted, and his children cried in the most heartrending manner. It was a terrible calamity to them. The body was delivered to the family without an inquest, and taken to their home in the First Ward. This poor woman is left with five children, entirely destitute. The case is one which calls for *more* than the sympathy of the benevolent.

A TERRIBLE FALL—NARROW ESCAPE.—Last evening, between five and six o'clock, our pressman, FRITZ GOLL, narrowly escaped losing his life, and as it was, had his arm broken, and was quite severely bruised. While engaged hoisting a box of wood from the ground in the rear of the *Sentinel* office to the engine room in the 3d story, the hoisting chain gave way at the top of the building, while FRITZ was standing in the door of the press-room pushing it off, so as to keep the wood from interfering, as it came up, with the windows underneath, and the sudden jerk of the chain's breaking above, brought him down head first on top of the wood, a distance of some forty feet! How he escaped with his life is really a miracle.

He was seen passing the window of the job room in his rapid descent down, and all the hands rushed out, expecting to find the poor fellow a mangled corpse below, but they were gladly surprised to see him endeavoring to get up, and asking for water. His left arm was fractured or broken above the wrist, and a severe gash inflicted in his head, besides being otherwise badly bruised. Dr. WOLCOTT dressed his wounds, and made him as comfortable as could be expected, before he was taken to his home.

ARRESTS MADE BY THE POLICE OF THIS CITY DURING THE PAST MONTH.—The whole number of arrests made by the Police of this city during the month of June, were two hundred and sixty-seven, for offences as follows:

Disorderly conduct,	85
Bathing in City Limits,	40
Drunk and disorderly,	50
Assault and battery,	15
Grand larceny,	7
Petty larceny,	6
Keeping House of ill-fame,	2
Inmates of houses of ill fame,	10
Adultery,	3
Keeping disorderly houses,	3

Vagrant,	5
Threatening to shoot,	1
Passing altered money,	2
Getting money under false pretences,	1
For various petty offences,	28
Making a total of	267

This is a larger number of arrests than for either of the two preceding months. We are indebted to Mr. RODEE, Assistant Station House Keeper, for the information embraced in the above list.

FIREWORKS FOR THE FOURTH.—O. D. PEASE & Co., at No. 19 Wisconsin Street, have a large and well-selected assortment of Fireworks, which they sell cheap. They were going off rapidly yesterday.

Common Council Proceedings.

MAYOR PRENTISS PRESIDING.

On Wednesday evening a special meeting of the Board of Councillors was held, and all the members of the Board were present, with the exception of Councillor Lapham.

Accounts were presented and referred.

Mr. Waldo presented a memorial, asking the Council to establish a pound for the confinement of hogs and cattle which are let run at large through the streets, which on motion was referred to the Street Commissioners.

The chair presented a communication from J. B. Weld and others, owners of lots in Hubbard & Pearce's addition, asking that the Chief of Police be directed to give notice to the occupants of numerous shanties in said addition, to quit before the 10th of July, and failing to do so to have them removed. The matter was referred to the local committee of the First Ward.

A number of petitions relative to erroneous assessments, &c., were presented and referred to the the committee on taxes.

Councillor Waldo, presented a remonstrance from D. Daggett and others, against the proposed alteration of grade of Walnut street, which was referred to the joint local committee of the Sixth Ward.

Councillor Hadley presented a memorial from S. C. Engel and others, praying that the alley through block 153, in the First Ward be opened, which was referred to the local committee of that ward, and afterwards called up by Mr. Hadley, and a resolution adopted requesting the street commissioners to take immediate steps for the opening of said alley.

Councillor Hadley also presented a preamble and resolution that

Whereas, There is a large portion of the territory of the First Ward unaccessible by reason of a want of continuation of the avenues through the city or alms house lot laid out and recorded through Lockwood & Gliddon's addition to the city;

And Whereas, It is scarcely just to require the owners and occupants of property North of the city or alms house lot, to pay taxes for city purposes, without affording them the means of access to their property; therefore be it

Resolved, That the city engineer be directed and instructed to proceed and lay out avenues in continuation of the avenues through Lockwood's addition, through the city or alms house lot.

Which, on motion, was referred to the Street Commissioners.

Councillor Heinemann presented a remonstrance against the paving of Division street, which was referred to the Street Commissioners.

Councillor Hadley to whom had been referred the recommendation of the St. Commissioners in relation to grading Racine street, and side walks from Humboldt bridge to Pleasant street, presented their report, and for reasons mentioned therein, suggested that this recommendation be recommitted to the Street Commissioners to the end; that they may take such action in relation to that portion of the street that is legally laid out as they may deem proper. The report was concurred in, and on motion of the Chairman of the Committee, the document recommitted to the St. Commissioners.

Councillor Waldo, from the committee to whom had been referred the petition of G. F. Austin, relative to unjust taxation, reported by resolution that Mr. Austin's personal tax for 1857, be reduced to one-fourth its present amount, which was adopted.

Councillor Vogel, from the committee to whom had been referred a certain petition relating to putting up gas lamps on Detroit street, reported by a resolution, that the Gas Light Company be requested to erect lamp posts on Detroit street, from Main to Van Buren, in the 8d Ward, on every transverse corner, except Jefferson and Detroit which are already supplied.

Councillor Human moved to amend by adding "and one lamp on the South-West corner of Cherry and Eleventh streets in the 9th Ward." The amendment was concurred in, and the resolution adopted.

Councillor Waldo, from the local committee of the Seventh Ward, to whom had been referred certain recommendations of the Street Commissioners, reported by resolution that lots 1, 2, 8 and 20, in block 73, lot 7 in block 58, and lots 1, 2, 3 and 4, in block 2 in the Seventh Ward, be declared a public nuisance, by reason of stagnant water thereon, and the Street Commissioners be requested to cause the abatement of said nuisances forthwith; which was adopted.

Councillor Waldo from the Judiciary Committee, to whom had been referred the petition of R. G. Owens, asking for the remission of taxes on certain lots upon which the Lake has encroached, reported adverse to granting the prayer of the petitioner. The report was concurred in.

The resolution appointing a messenger to the Council for 1859, was reported adversely to, by the committee to whom it had been referred, and the report concurred in.

The committee on school's presented a report setting forth the condition and wants of school edifices in the different Wards. The committee recommend that the school house and lot in the Fifth Ward be disposed of, and another lot purchased upon which to build a new school house, the present one being unsafe and not large enough to accommodate the children of that ward. The committee also recommend that provision be made for School Houses in the 8th and 9th Wards, and that the Second Ward school house be completed in time for the commencement of the school the next term. The report directs attention to the unsafe condition of the school house in the 3d Ward, and the committee advise that the building be firmly braced with anchors. Councillor McCormick objected to that part of the report which related to the 3rd Ward.

He thought the building was quite unfit for use and he had taken his children away from it. He believed that no patching up would make the old structure safe. After considerable discussion the entire report was re-committed to the committee, with the understanding that plans and specifications, &c., be called for, for the building of a new school house in the Fifth Ward.

Recommendations from the Street Commissioners to abate nuisances in the First Ward, were referred, on motion of Councillor Hadley, to the local committee of that Ward.

A communication from the Comptroller, stating that a contract for building crosswalks in the First Ward, entered into by the City Engineer with John Dolan, had not been countersigned by the Comptroller, &c., was, after some debate, referred to the local committee of that Ward.

A resolution was adopted fixing the time for the return of the assessment roll, on the 15th of August, 1858.

A resolution was presented to the effect that a joint committee be appointed to go before the Grand Jury and procure an indictment against the Milwaukee & Superior Railroad for obtaining $100,000 in city bonds by fraud, and speculating with the same, instead of applying it to the building of the road. Councilman Hadley moved to lay it on the table, and gave his reasons for it. The motion was lost by a vote of 6 to 5. Mr. Hadley then moved to indefinitely postpone the resolution. He made quite a long speech, in which he explained his reasons why he thought no further action ought to be taken in the matter. He made a motion to postpone the whole matter indefinitely, which was finally carried by a vote of 10 to 3.

After the transaction of some other general business, the Board rdjourned to Wednesday, to complete unfinished business.

FIVE DOLLARS REWARD.—MR. O. F. BERKEN, offers $5 reward for the recovery of a little black terrier dog, with white spot on his breast, and a silver collar, which he lost in this city yesterday. Any person who will take the dog to the Menomonee Hotel will receive the above reward.

A Patriotic Appeal.

At the meeting of the Board of Councillors on Wednesday evening, the Mayor presented the following communication from Miss ANN PAMELOR CUNNINGHAM, Regent of the Mount Vernon Ladies' Association, which explains itself:

RICHMOND, VA., June 17.

To the Mayor and City Council of Milwaukee:

GENTLEMEN:—You are aware that the women of the United States are devoting their best energies to the sacred object of perpetually securing to their country, as a "holy shrine" of national affection, the home and the tomb of Washington.

The success which thus far has attended their exertions, aided as they have been by the voice of eloquence and the spontaneous offerings of patriotism, emboldens them to appeal to the whole country, not as petitioners for assistance, but as sisters to their brethren to come up to this great work, and to place *their* voluntary offerings also on the grave of their common father, of the the man who has been unequalled in the tide of time, for his wisdom, his self-negation, and his purity.

It is believed that the approaching anniversary of American Independence—an event so inseparably connected with the memory of the Patriot-Hero, whom we all delight to honor—will present to our fellow citizens *a fitting occasion to enroll themselves as members* of an association, whose sole impulse is that of disinterested love of country; and we therefore, respectfully ask, that you will make such arrangements, for the Fourth of July, 1858, as in your wisdom may seem best, for obtaining contributions in aid of the great object which every American should cherish in his heart of hearts.

I beg leave to append an extract from our by-laws, by which it will be seen that a small sum from each individual, confers the privilege of membership in an association, the accomplishment of whose work, must be an object of pride and gratification to all who have aided in it, however humbly.

I enclose you a subscription paper; the money which may be collected, can be forwarded to to Geo. W. RIGGS, of Washington City, Treasurer of the Association. The names of subscribers are to be sent to the Regent.

I have the honor to be, with great respect, Yours, ANN PAMELOR CUNNINGHAM,
Regent, Mt. Vernon Ladies' Association.

Extract from the By-Laws of the Mt. Vernon Ladies' Association of the Union:

"Any citizen of the United States from whom the Regent, any of the Vice-Regents, the Secretary, the Treasurer, or any Local Board or authorized Agent, may for that purpose, receive or recognize the receipt of the sum of one dollar, shall be a member of the Association, and the payment of the further sum of one dollar, on or before the 22d of February, of any year, shall entitle a member to attend and vote at the Annual Meeting of the Association for that year."

The communication was referred to the Finance Committee.

For the Daily Sentinel.

A German Protestant School.

The Germans in a distant part of the City, on Teutonia street, in the Ninth Ward, and in that neighborhood, have undertaken to build a School House, where their children will be taught the elements of learning in their mother language, and the great truths of the bible, where all protestant denominations agree, without particular regard to the creed, sects or parties. The School House is under way and partly finished by by the kind aid of some friends, by their own labor and exertions. They are now desirous of finishing it for use, and need a little more assistance. The benevolent and well wishers to the cause will do this neighborhood and vicinity a great favor by calling on the Rev. S. G. SPEES, who is authorized to receive any aid however small it may be, the citizens may see fit to render. All aid will be gratefully received.

POST OFFICE SUNDAY ARRANGEMENT.—On and after Sunday, July 4th, the Post Office will be opened at quarter past nine A. M., and closed at quarter past ten A. M., instead of from twelve to one M.

HORTICULTURAL SOCIETY EXHIBITION.—The Exhibition of our Milwaukee Horticultural Society, at Albany Hall, yesterday afternoon and last evening, was decidedly the best they have yet had. The show of Fuschias, Roses and Geraniums was magnificent; the Strawberries, for size, flavor and variety, could not be excelled; the bouquets were most tastefully composed; and what few Vegetables were exhibited fully sustained the reputation of our Market Gardeners. The exhibition was well attended, and the society, we hope, realized enough from it to re-imburse them for the expenses incurred.

Merrill's American Cornet Band played, at intervals, during the evening, and won universal praise. But for the rain, the Hall would have been crowded.

POLICE COURT YESTERDAY.—An old offender named John Meyer, was convicted of being drunk and disorderly, and sentenced to three months imprisonment in the county jail, in default of $5 fine. Morris Anderson was fined $3 for disorderly conduct, and Mary Mahor $5 and costs for being drunk and disorderly. Jeremiah Tompkinson was convicted of indecently exposing his person, and fined $25 and costs, in addition to a reprimand from the court.—Frederick Valger, convicted of keeping a slaughter house within the city limits, was fined $50 and costs.

HOME AGAIN.—Dr. J. K. BARTLETT, who left our City just six months ago, for a trip to Europe, for the benefit of his health, which had been impaired by long and faithful professional labors, returned on Wednesday, greatly improved by his travels. He was welcomed back by a large circle of friends, and will at once resume practice.

LATE NEW YORK PAPERS.—We are again indebted to SIGERSON, of the News Depot, 209 East Water street, for late New York papers in advance of the mail.

☞ We have received an invitation and ticket, through Capt. CHAS. H. TOWNSEND, to attend the ball to be given by the Milwaukee Light Guard Cadets, at the Hall of "The Albany," on Monday evening, July 5th, 1858.

The ticket is handsomely adorned with patriotic emblems of war, and gives a tempting promise that all connected with the affair, will be tasteful and stylish, and in keeping with the celebrity which the entertainments of this *crack* corps of the State has obtained. The idea of spending an evening at Milwaukee in the beautiful Hall of "The Albany," stimulated by the music of Merrill's American Cornet Band, and surrounded with the whole-souled hilarity of citizen soldiers and thorough gentlemen, to say nothing of the racks of female loveliness, which upon such occasions surround the Milwaukee Light Guard, is agreeably seductive.

The *Patriot*, in the person of its Junior Editor, is exquisitely sensitive to the joys of such a time, and in all probability will be represented in Milwaukee, on the 5th, and have the pleasure of saluting Capt. CHAS. H. TOWNSEND, and the Light Guard Cadets in the evening.—*Madison Patriot.*

MAMMOTH STRAWBERRIES.—Mr. CHURCH, of Lake, brought us yesterday, a quart of Strawberries, fresh picked from the vines, which must have averaged nearly three inches in circumference, and were delicious in flavor. We have seen no finer berries this season. Mr. CHURCH supplies his customers every morning, with fresh berries, in good measure.

THUNDER SHOWER.—A thunder storm, accompanied with a drenching rain, passed over our city last evening. The rain saturated the ground, cleansed the streets and cooled the air.

FIFTH OF JULY DINNER.—In the absence of any other public dinner, Messrs. KEAN & RICE give notice that they will give their friends an old fashioned Massachusetts and Kentucky Dinner, on the 5th inst., at the Newhall House.

It is quite unnecessary to add that the dinner will be such as to satisfy the most fastidious epicure.

CHOICE FAMILY GROCERIES.—W. H. PARMELEE & Co., dealers in Choice Family Groceries, at No. 31 Wisconsin street, (Young's New Block,) have on hand a very superior stock of goods, which they offer for sale at extremely low rates. Read their card give them a call.

A GREAT BARGAIN.—The farm advertised in the Administratix sale, in this morning's *Sentinel*, is one of the best in the town of Franklin, and may be had at a bargain.

LAPHAM'S CITY MAP.—LAPHAM'S City Map, with the recent Additions, may now be had at the Bookstores. It is full and reliable.

☞ TO DRUGGISTS AND THE PEOPLE.—YOU are hereby cautioned against spurious imitations of Dr. De Grath's "Electric Oil," as we shall prosecute any party who uses our *copy righted* bills. This (genuine) "Electric Oil" has cured the Mayor of Camden, of Piles and Rheumatism; also, Hon. John Williamson, Printing, Hon. E. Killigarth, (whom it took off his crutches in one day) and more than 100 others in Philadelphia, whose names have been published in the Philadelphia *Ledger*.

The wholesale dealers in Philadelphia would not countenance any scamp guilty of the rascality of counterfeiting. In Harrisburg, John Wyethe, Esq., a well-known Druggist there, caused the arrest and imprisonment of one Valentine, who attempted an imitation of this valuable remedy. A gentleman will soon be in Pittsburg, and will be able to show the people what power this Oil has over disease and pain.

Principal office 89 South Eighth street, Philadelphia. No (genuine) Oil without the name Dr. De Grath's Electric Oil blown in the bottle, and the written signatures of Dr. De Grath & Co., and E. A. Smith, to imitate which is felony!

☞ For sale by Bosworth & Sons, and J. H. Tesch, Milwaukee; Fahnestock & Davis, and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country. je30dawlw

☞ PROF. WOOD'S HAIR RESTORATIVE.—In our advertising columns is to be found an advertisement of the popular preparation. We now publish of its merits save what we read, but that is sufficient, particularly when we see such testimony of its efficacy as the following, which we clip from the Ottawa *Free Trader*:

"Having tried successively many highly recommended hair tonics, on our own half denuded crown, we about lost all confidence in nostrums of that sort, until a week ago we met a distinguished politician of this State, whom we had seen three years ago with his hair, shall we say as a rat, but now boasting as fine a head of hair as one could wish. We demanded the secret of his improved appearance, when he readily accounted for it by ascribing it to the virtues of Prof. Wood's Hair Restorative. We will try that next.—[Rock River Democrat.

LATEST NEWS!

BY MAGNETIC TELEGRAPH.

NEW YORK, July 1.

A dispatch from Washington to the *Evening Post*, states that Mr. Comstock, the Agent for Collins Company has returned from Europe.—He has contracted with parties in France for the sale of the three Collins' steamers for the sum of $1,600,000.

A letter to the Agent of the Glasgow Line of Steamers, received per *Arabia*, states that a portion of the cargo of the wrecked steamer New York, had been saved; most of the passengers would remain over for the *Edinburg* which was to sail on the 20th.

The steamer *City of Baltimore* sailed to-day for Liverpool with 100 passengers, and *Saxonia* for Hamburg via Southampton, with 24 passengers.

WASHINGTON, July 1.

A contract has been concluded, by the Post Office and Navy Departments, with the Pacific mail steamship company, for carrying the mail between Astoria and Panama, at $4,825 dollars per annum.

Mr. W. H. Davidge has telegraphed to the P. O. Department that he has made an arrangement with the Tehuantepec Company, under the extension to the first of October, 1859.

The entire territory of New Mexico has been constituted a new land district. Wm. Pelham has been appointed Surveyor General, and the lands will soon be brought into market and opened to pre-emption. The Land Office has information showing the richness of the soil in precious metals, particularly the Mesilla Valley.

Baron De Wetterzdt, Minister from Sweden and Norway, has presented his credentials.

Jas. S. Wilson is Acting Commissioner of the Land Office, in the absence of Commissioner Hendricks, who has gone to India.

Lieut. General Scott has left Washington for his head quarters.

Mons. Belly has arrived.

Christopher Graham has been appointed receiver of the public moneys at Henderson, Minnesota; and Joseph Hoppin to similar office at Marysville, California.

HALIFAX, July 1.

The Royal Mail Steamship *Europa*, Capt. Leitch, from Boston for Liverpool, passed Ragged Island at 1 P. M. to-day, and will be here early to-night.

The Buffalo Rail Road Convention.

BUFFALO, July 1.

The R. R. Convention adjourned *sine die* at 9 o'clock last night, after passing the following resolutions:

Resolved, That the New York and Erie Co. be requested to advance on its passenger rates, to the prices prior to the recent reduction, which rates shall remain unchanged till the 15th of July next.

Resolved, That a Committee of three be appointed by this Convention to inquire into the difficulties between the Erie and Central Co.'s.

Mr. Moran, President of the Erie Co., protested against the action of the Convention, declaring that the Erie Company would not be bound by it, and that the Erie Co. would endeavor to work for its own interests, indep endent of the action of this Convention.

Although the Lake Shore, Cleveland & Toledo, Cleveland, Columbus & Cincinnati and other roads were represented in this city, no delegates from them took part in the proceedings of the Convention, and consequently they are not bound by its acts.

The Committee of Conference made the following report.

It is the opinion of your Committee that positive evidence has been adduced, showing a violation either on the part of N Y & Erie or N Y Central R R Companies, of the contracts formerly existing between said Companies, and your Committee believe that the recent great reduction in passenger fares on the part of the N Y & Erie R R Company, was induced by unfounded reports and misapprehensions on the part of the N Y Central or other roads, and therefore earnestly recommend to these roads to meet together in a spirit of conciliation, and adjust the differences between them.

To adjust existing difficulties and restore the the rates of fare, your Committee recommend roads represented to put in force the 18th article the Cleveland Convention of October 14, 1857, against all ro

MILWAUKEE:
FRIDAY MORNING, JULY 2.

The News "Crawfishing" Again.

When we copied, a day or two since, the singular and suspicious comment of the *News*, upon the sudden change of front in the Chicago *Union*, from BUCHANAN to DOUGLAS, we hardly realized the fact that the *News*, so recently a devout worshipper at the shrine of the former, was about to turn its back to the "setting sun," and address its adorations to the rising luminary.—But the *News* of yesterday, leaves no doubt upon the point. Having "revolved" from Anti-Lecompton to Lecompton, from DOUGLAS to BUCHANAN, last fall, under the strong pressure of a Post-Office screw, the *News*, relieved from that constraining influence, is now manifestly preparing to take "a turn back." Not content with sympathising with DIVERSY and DOUGLAS, and ridiculing the idea of starting a BUCHANAN paper in Chicago, the *News* openly proclaims that the DOUGLAS Convention at Springfield represented "the regular Democracy" of Illinois, and roundly denounces those who got up the second Convention and gallantly displayed the Administration banner—"bearding the Lion in his den, the Douglas in his Hall"—as a "contemptible faction" of "*boilers and disorganizers.*"

Now we already knew that prominent emissaries, the well-known F. I. GRUND among them, were sent on from Washington, to regulate this second Convention; that all the Federal office-holders in Illinois took part in the proceedings; and that Senator DOUGLAS himself, in his place in the Senate, and in the hearing of the editor of the *News*, charged home upon the Administration "this plot to divide and destroy the party in Illinois," in the hope and with the avowed purpose, of breaking down "the Little Giant." In short, the ruin of DOUGLAS is an Administration measure, just as much as the Lecompton Villainy was; and our only marvel is, that the *News*, which went all lengths for the latter, hesitates to endorse the former. To be sure, there has been a change in our City Post Office—but what

...racy on Lecomptonism.

...tonites of Pennsylvania receive no
...ds of FORNEY. He talks plain-
...om and their precious scheme,
insight into the Democratic
...reveals throughout the Free

the Press; "who forced Le-
...ongress—the men who in-
...entiment—the men who de-
...e of 1856, who applauded the

...their men now call upon the mass-
...thern Democracy to re-elect them to
...ngress, and thus to seal, by a popular
...ssanction act of political turpitude and
...nacy to be found in political annals!

But, in the name of a great party, we say, no! to the demand. We assert that enough has been lost by this dishonoring example. We declare that a sufficiency of sacrifice has been made in the name of a despotic doctrine. We insist that those who have attempted and who have failed in the attempt, to commit the Democratic party to this doctrine, should stand back and allow other men—men trusted and tried, who know the wishes of the people and respect them too—to take the nominations for the national councils; for if this is not done, hundreds of innocent Democrats must fall in the effort to elevate the guilty. In this State, every Democratic member of Congress but three has demoralized himself by voting for Lecompton in one or another of its shameless disguises. We ask, in all candor, whether these men are to be put upon Democratic tickets, like so many dead weights, to carry down other upon those tickets who had nothing to do with the sacrifice and the surrender?

"Success" is the practical question after all. Lecomptonism is not a virtue, but a lie—it is not a principle, but a fraud—it is not even a decent expedient, but an odious and festering corruption. It has, certainly merit, like the principle of the Kansas and the Nebraska act, which, when we fell for it in 1854, by its elasticity and power, shortly after rescued those who had stood by it, and restored the Democracy to the power which they had temporarily lost."

FORNEY does not talk as all as he thought, with the *News* here, that Lecompton is "a dead issue." On the contrary, he holds, and rightly too, that those who *betrayed the North* on that great question, are not fit to be trusted again; and as little those who uphold the cause which the Administration pursued.

The Minnesota Railroads.

Every mile of railroad built in Minnesota is, by just so much, an extension of our Wisconsin system of railways North-Westwardly towards the Pacific coast. The progress of the Minnesota railroads is, therefore, a matter of great interest to the people of Wisconsin. We copied yesterday, from the La Crosse National *Democrat*, the gratifying intelligence that the contract for building the Root River Railroad had been let to Mr. S. CRAMBERLAIN, the king of railroad builders, and that the work was to be commenced forthwith and vigorously prosecured. The Root River road runs from La Crescent, opposite La Crosse, and intersects with the Transit road. As to the prospects of the latter, the St. Paul *Times*, of June 20th, publishes the following information:

THE TRANSIT RAILROAD AGAIN.—We have been shown a private letter written to our friend Hon. E. M. Bearce, from which we learn that the contract for the Transit railroad, from Winona West, has been let to Mr. De Graff. The conditions are, that the road should be completed to the junction of the Cedar Valley and Transit roads by the first of January, 1860, and that the balance of the route, as far as St. Peter, will be graded and ready for the iron soon after that time. The work is progressing, and a large force of men are at work, the number of which will be greatly increased in a few days.

From the same source we learn that the "Minnesota & Pacific railroad," from St. Paul West, has been fairly commenced; that a large force of men are employed upon it, and that it will be pushed ahead as fast as men and means can be obtained. The construction of these important works will soon re-animate business and revive confidence in Minnesota, while attracting a fresh army of immigrants to her smiling valleys and fertile plains, and gradually developing the inexhaustible resources of her teeming soil.

A Sensible Southern Opinion.

The Richmond *Whig*, noticing the constant and canting appeals of the Southern Democrats for "a united South in support of the Democratic candidate for the next Presidency," takes occasion to disclaim the remotest idea of doing so foolish a thing, "under any conceivable circumstances," and adds:

"We may as well fraternize with and support Seward for the Presidency, as for southern Democrats to support Douglas, whom they have denounced very recently as just as bad, if not worse than Seward. And, in truth, we appreciate less danger to the South from the election to the Presidency of an open and avowed Black Republican than of a sneaking and hypocritical Northern Democrat *with Southern feelings!*

With the mass of intelligent people at the South, there is no question that a straight out Republican commands vastly more respect than a truckling time-server like Buchanan, who disguises his honest convictions, if he ever had any, and goes even beyond the South in warring upon the free institutions of his own section.

MONS. BELLY OVERBOARD!—Monsieur Belly is likely to turn out the great confidence man of the age. The French Minister at Washington says he knows nothing about him, and as good as intimates that Belly is, what everybody all along has suspected he was—a humbug.

Mr. Buchanan Summed Up.

The Albany Evening *Journa* thus forcibly recapitulates the leading incidents of the BUCHANAN mal-administration:

"He entered the White House with a promise of Freedom to Kansas, on his lips—and a scheme for enslaving it in his pocket. He declared war against Circulating Notes—and in six weeks was issuing them himself. Before the ink was dry with which he pledged "Economy," he drained the Treasury of its last dollar. Before the printers were done stereotyping his inflexible determination never to borrow—he was in Wall street soliciting a Loan!

"He congratulated the Country on the final end of Slavery agitation—and he has been agitating it ever since. He ordered Paulding to stop the Filibusters—and then re-called him for doing it. Walker of Nicaragua he pronounced an Outlaw—and then tendered him the Hospitalities of the White House. Walker of Kansas he furnished with written instructions—and turned him out for obeying them. In 1857, he took off the heads of the Postmasters who could not "hurrah for Popular Sovereignty." In 1858, he takes off the heads of all who repeat the cry of 1857.

"He withheld troops from Utah, where he proclaimed there was War—in order to keep them in Kansas where he insisted all was Peace. He sells Forts at the West for a tithe of their cost in order to purchase site for Forts at the East at ten times their value—his subordinates in both cases pocketing the difference. He is continually asking for new Steam Frigates—but he will not use those on the coast of Africa, or in the Gulf of Mexico. He sends out a steamer ostensibly to catch the Styx—but with private orders in the Captain's desk, to do nothing of the sort. Claiming to be the most frugal of Presidents—he has spent more money than any of his predecessors. Assuming to the above party prejudices, he makes part zanship the basis even of his invitations to Dinner!"

HOW IT WAS DONE.—A friend at Madison furnishes the Janesville *Gazette* with the following statement of the "ways and means" by which the contractor on the capitol extension was got rid of, and the work of patching up the old and dilapidated structure resumed:

CAPITOL EXTENSION.—A friend writes us from Madison, that Mr. McDonald, the present member of the legislature from the Madison district, is the successor of Mr. Eyecraft, as contractor for the work on the capitol extension; that his sureties are "such men as Judge Vilas, Van Syke, N. W. Dean, S. Mills, John Wright, and a host of others of that class." Our friend writes that "two hundred men will be put on the work immediately, as the stoppage of the work by the Milwaukeeans will make it necessary in order to get the building ready for the next session.

Some suggestions made by Mr. Springer, a Chicago architect, will be adopted as to changes in plan of building; among these changes is the use of iron instead of stone columns, "which alone will make a difference of 100 tons in the weight; and make it all secure without the inverted arches, that there was so much said about last winter." Our friend also says that "Eyecraft played his game sharp between Milwaukee and Madison, but about $8,000 for his contract fetched it."

This is the material portion of our friend's letter, which returned in a slip cut from the paper, the paragraph asking information as to "how Eyecraft was disposed of, and who are the new contractors." He seems to think that we should publish something about it, and we give such facts as he sends us.

Schemes of the Southern Disunionists —Letter from Hon. W. L. Yancey.

The following letter, from a leading fire-eater, appears in the Atlanta (Ga.) *American*. Its tone is that of the Southern ultraists in general, with, perhaps, a degree of cool, calculating policy, rather beyond what the disunion leaders have usually manifested. It is the plan of these "National Democrats" to adhere to the Administration party so long as it continues to be serviceable to their purposes, but "at the proper moment," they mean to "precipitate the Cotton States into a revolution." We think the time is coming when many honest democrats at the North will cease to be willing to do the bidding of these bold and unscrupulous plotters against the Union, and lend their co-operation and fellowship, as the Administration does, to men avowing such purposes as those of Mr. Yancey:

MONTGOMERY, June 15, 1858.

DEAR SIR:—Your kind favor of the 14th is received.

I hardly agree with you that a general movement can be made that will clean out the Augean Stable. If the Democracy were overthrown, it would result in giving place to a greater and hungrier swarm of flies.

The remedy of the South is not in such a process. It is in a diligent organization of her true men, for prompt resistance to the next aggression. It must come in the nature of things.—No National party can save us; no Sectional party can do it. But if we would do as our fathers did, organize Committees of safety all over the Cotton States,—and it is only in them that we can hope for any effective movement) we shall fire the Southern heart—instruct the Southern mind—give courage to each other, and at the proper moment, by one organized concerted action, we can precipitate the Cotton States into a revolution.

The idea has been shadowed forth in the South by Mr. Ruffin—has been taken up and recommended in the *Advertiser*, under the name of "League of United Southerners," who, *keeping us their old party relations on all other questions, will hold the Southern issue paramount, and will influence parties, legislatures, and statesmen.* I have no time to enlarge; but suggest merely. In haste, yours, &c.,

W. L. YANCEY.

Death of Martin Kosta.

Martin Kosta, the Hungarian refugee, who was rescued from the Austrian authorities in 1855, by Commander Ingraham, of the United States Navy, died recently in very indigent circumstances, on a sugar plantation, near the City of Gautemala.

This was the famous hero of the celebrated "Kosta case," which was the occasion of the famous Webster Letter, vindicating the Right of Asylum, to the Austrian Chevalier Hulsemann, during the Administration of Mr. Fillmore.

THE ARRIVAL OF THE PEMBINA TRADERS.—The annual arrival of these swarthy sons of the north-west is an event of no little importance in the history of St. Paul, and deserves a passing notice at our hands. Some two or three hundred teams are now encamped on the bluff, near the St. Anthony road, and many of our citizens have already paid them their accustomed visit. They certainly present an interesting feature of study for the stranger, and with those who by a long residence here, have become familiar with their mode of life, excite no less interest, and topic for conversation. The number of teams coming down this year amount in all to about six hundred, thus leaving some three or four hundred teams now on their way, and which will arrive here in the course of a few days.

Their furs alone do not constitute the sole value of their visit here, for besides these they bring down a considerable amount of money, which they obtained for furs sold to the Hudson Bay Company. In exchange for this and their furs they obtain whatever happens to strike their fancy, from a fish-hook to a barrel of whiskey, the latter predominating as a matter of taste over everything else. The average of a day's travel is about 25 miles, and the distance is made in about one month.

Their rudely constructed carts, the peculiarities of the harness, and indeed everything in any way connected with these trains, forcibly recalls to mind our ideas of primitive life, as we imagine things used to be before the age of inventions. Coming as they do, a distance of nearly eight hundred miles, and that too in the hottest season of the year, it is not a little remarkable how well their cattle appear to stand the journey. They bring to our city a large amount of the most valuable furs, which, disposed of here, soon find their way into the markets east, where they are manufactured, and again turned into a new form.—*St. Paul Times*, June 23.

NAVIGATION OF THE WISCONSIN RIVER.—Mr. William McKenzie, one of the solid and substantial farmers of Caledonia, in this county, a few weeks since, built a flat boat and taking on board 3,000 bushels of oats, 9 passengers, 4 tons of freight and 60 bushels of corn, wheat for a sample, started from Dekorra, (eight miles below this city) for St. Louis, where he arrived in due time with his cargo in good condition. He informs us he sold his oats at a good profit; and the wheat he exhibited to the dealers in grain, who pronounced it fully equal if not superior to any red winter that goes to that market. Mr. McK. was very much pleased with his passage down the river, and treatment at the hands of the St. Louis commission merchants, who sold his grain; and to the members of the press of the city, upon whom he called for the purpose of soliciting their aid in bringing to notice the fact that the Wisconsin river is navigable for light draught steamers during nearly the entire season. Mr. McK. saw and conversed with quite a number of steamboat men, who gave him encouragement that they would put a boat upon this route.

If some enterprising practical man, or company of men, would put a boat on the Wisconsin, and run it regularly, there is no doubt but it would have plenty of business.—*Portage City Record.*

Free Democratic Convention.

Nomination of F. P. Blair, Jr., by Acclamation—Unparalleled Enthusiasm—The Free Democracy in the Field.

On Saturday night last, the Free Democracy of the different wards and townships in St. Louis city and county, selected delegates to a County Convention, which met yesterday in Washington Hall, in this city. The hour fixed for the meeting of the Convention was 10 o'clock A. M., but long before that time the hall was crowded with the friends of the cause, and such delegates as found it convenient.

The interest manifested upon the occasion was a sure indication of the success that awaits the party next August. Every manifestation gave indications of the beating of the great popular heart. Those who fought office joined as loud in the applause which greeted the victors as if they themselves had been successful.—There was an evident consciousness on the part of every man, that the principles of the party were above personal claims, and that the whole must demand the obedience and the concurrence of the individual.

At 10 o'clock every delegate was in the hall, and the crowd in attendance was so great as to render the heat almost intolerable, yet, notwithstanding this, the Delegates went to work with the greatest patience, order and cheerfulness, and the whole proceedings of the Convention were characterized by the utmost harmony and patriotism. The name of Mr. Blair was received with an enthusiasm absolutely indescribable, and no surer evidence could be needed to convince a stranger that the course of that gentleman had elicited the warmest sympathies and purest gratitude of his constituency.

The proceedings of the Convention were entirely harmonious and characterized by great enthusiasm. The following were the resolutions adopted:

Resolved, That we re-affirm as the basis of our political faith the great Democratic doctrines promulgated by Mr. Jefferson and the fathers of the Republic—the strictest economy in the administration of public affairs, and hostility to monopolies of labor, of land, and of every description of monopoly—privilege or class legislation.

Resolved, That we denounce the present Federal Administration for its reckless profligacy and extravagance, the public expenditure exceeding that of any administration of the government from its foundation, whilst not one single dollar has been appropriated to improvement of Western rivers and harbors. We denounce the system of jobbing and speculation which prevails in every department, manifesting itself in such transactions as the fraudulent purchase of Wilcox's Point, and the letting of enormous contracts to party favorites in violation of law.

Resolved, That we denounce the present administration for its abandonment of every principle of Democracy, by the profession of which it attained power—we denounce its contrivance, the Lecompton Constitution, which it has sought and is now seeking to force upon a reluctant people; we denounce the administration for violating the law of Congress on the subject of the overland mail, in order to propitiate their South ern masters making that which was intended as a national road, a merely Southern and sectional one. We denounce the administration for its hostility to the West and all Western improvements, inasmuch as it has denied the West a fair share in the benefits of the government, in order to swell the profits of the jobbers and pluncerers.

Resolved, That we are opposed to negro equality and to all who favor negro equality, and to those who seek its accomplishment by compelling white men to work side by side with negro slaves.

Resolved, That we believe it to be for the best interests of Missouri that slavery should become extinct within her borders, and the negroes removed beyond her limits. Give us Missouri for white men, and white men for Missouri.

Resolved, That we must deplore a National Legislature, which has been untrue to the laboring interests of the country—solicitous only for agitations gotten up by politicians for their own personal elevation, and that we recognize as far more in accordance with the republican character of our government—that system which shall require honesty and capacity as passports to office, rather than mere reckless partisan attachment—which shall consult home economy by abolishing tariff duties upon necessaries of life—which now tax all consumers for the benefit of the few who monopolize their production—which shall encourage the improvement of our great river, that bear the commerce of the West to the markets of the East, and shall also forthwith promote the construction of a central National highway to connect us with the Pacific States, and which shall introduce such reform into the disposition of public lands as will secure the soil to actual settlers free of charge, and wrest it from the hands of those who now speculate in the homes of the people; and grow rich swindling pioneers.

Corn Weather and Tall Corn.

MESSRS. EDITORS,—Having heard a good deal of what we of the south have considered "Wisconsin blowing" on the subject of tall corn—long cucumbers—big potatoes, and *some* "in the hill"—and the unaccountable *speed* in the production of these prodigies, a thought occurred to me to test the corn question, so far at least as rapid growth was concerned.

On Monday, June 21st, I planted in my brother's garden several hills of corn of the "Stowell Evergreen" variety, by no means a fast grower. I left the city for a few days, and on my return the following Saturday I found my corn up and *hoed*—a service my brother's good lady had performed as *solace*—her goslings having *cropped* a part of the crop. On Monday, when the seed had been in the ground just one week, I measured one of the tallest blades, and found it *seven and a half inches* from root to tip. In view of this result, I am willing to make amends for my former incredulity by a change of two letters in the term "Wisconsin blowing," and call it Wisconsin *growing!*

The lateness of the planting has been urged as a sure guarantee of a failure in the crop. However it may fare with the "roasting ears," present indications certainly favor a fair yield of fodder. But we shall see what we shall see. Yours for the advancement and rapid growth of the Badger State.

A. G.

[Our correspondent, whose pen has before been employed for the benefit of our readers, has been residing for the past fifteen years in the cities of Baltimore and Washington, and has been spending several weeks with relatives in this city, with the intention, as we understand, of locating at some "growing place." Query—Had he better look any further?—EDS. GAZ.]—*Janesville Gazette*, June 30.

THE AMERICAN EXPRESS COMPANY.—The marble front six story building of the American Express Company, fronting on Hudson, Jay and Staple streets, was formally opened yesterday afternoon, when the Directors and their employees turned out in their express wagons and drove through the city, creating much wonder in their route. One of the wagons was drawn by ten horses, which were admirably managed by Mr. Hewlett. The building of this company has already been described in the *Tribune*.—It is six stories high, with marble front, 100 feet square, and is pronounced one of the most substantial structures in the city.—*New York Tribune.*

The business transacted by this company is so enormous that these huge structures are absolutely required. They are not mere advertising displays, but real necessities, and no better proof of the integrity, success and power of the company can be asked than is exhibited in these substantial and magnificent accommodations for their business.—*Indianapolis Journal.*

LAUGHTER.—Laughter is not altogether a foolish thing. Sometimes there is even wisdom in it. Solomon himself admits there is a time to laugh, as well as a time to mourn. Man only laughs—man, the highest organized being; and hence the definition that has been proposed of "man, a laughing animal." Certainly, it defines him as well as a "cooking animal," a "tool making animal," a "political animal," or such like. Laughter very often shows the bright side of a man. It brings out his happier nature, and shows of what sort of stuff he is really made.—Somehow we feel as if we never thoroughly knew a man until we hear him laugh. We do not feel at home with him till then. We do not mean a snigger, but a good, round, hearty laugh. The solemn, sober visage, like a Sunday's dress, tells nothing of the real man. He may be very silly, or very profound; very cross, or very jolly.—Let us hear him laugh, and we can decipher him at once, and tell how his heart beats. We are disposed to suspect the man who never laughs At all events, there is a repulsion about him which we can not get over. Lavater says:—"Shun the man who never laughs, who dislikes music or the glad face of a child." There is what everybody feels, and none more than children, who are quick at reading characters; and their strong instinct rarely deceives them.—*Blackwood.*

A DEMOCRATIC POSTMASTER IN TROUBLE.—The Postmaster at Willow Creek, in Lee County, Illinois, is in sore tribulation, if we may judge from the following card which he publishes in the last Dixon *Republican*:

June 18th, 1858.

Notice is hereby given to the Methodist Church that Albert N. Dow has said that S. O F. Beckwith has taken unlolul postage. I say is aly also he has got Wm. L. Smith appointed P m in my place without a cause.

Publishers Daily Sentinel, Milwaukee, Wis.

A KNOTTY LAW POINT.—The English Court of Exchequer has recently had before it the question whether the epithet "black-leg," applied in conversation to another, will sustain an action for slander. To write down a man a black-leg is no doubt actionable, but then the law makes a marked difference between libel and slander. Anything that you may say of a man in writing or in print, which tends to bring him into contempt, will sustain an action for libel; but to prevent too great an infringement upon the liberty of speech and to restrain the infinite multiplication of slander suits, it has long since been settled that no merely spoken charge shall sustain an action unless the words used imply an indictable offence, or unless they attack a man's competency in the business which he professes and by which he gets his living. To call a man a thief is actionable, because this is to charge him with an indictable offence; not so to call him a rogue, a cheat, or a villain. In the case to which we refer, it was contended, on the one hand, that the term black-leg was merely a general epithet of reproach and discredit, like those above cited, and, as such, not sufficient to maintain an action. It was contended on the other hand, that the term black-leg implied a charge of fraudulent gambling, and in so doing did, in fact, charge an indictable offence.

The point proved too hard for the Court to settle, the four Judges being equally divided.—*N. Y. Tribune.*

THE POST-OFFICE.—We heard some amusing gossip, yesterday, which we will take liberty of relating, for the edification of our readers, suppressing the names and localities.

A lady sent to one address, and, in the same envelope, two letters, to different correspondents. The Postmaster detected it, and wrote to the fair transgressor that she had rendered herself liable to a criminal prosecution, and threatened her with the vengeance of the Government. He displayed his gallantry, however, in a P. S., informing her that, since a lady was in the case, he would, on receipt of ten dollars, propitiate Uncle Sam and hush up the matter. But the fair culprit repulsed his "tender mercies," and inclosed the correspondence to the Post Office Department. It is generally supposed that the Department will, hereafter, conduct its affairs without his intervention.

The other incident was as follows: An editor quarreled with a postmaster, and besought the department to turn him out. Nobody seconded the editor's motion, but the whole neighborhood rent in a remonstrance. The editor, becoming desperate, and aware of the preference entertained by the Administration to white men over gentlemen of color, advised the Rev. Assistant Postmaster General that the postmaster was an abolitionist, because he acted as agent for a hair dye invented by "a d—d nigger!" This last card of the editor was, however, no trump; for he was, good naturedly, advised that the postmaster's collateral employment was really benefiting the Administration, inasmuch as the nigger's ingenuity would, if successful, tend to relieve the country from the last vestiges of a wig party! The concluding epistle of the editor consisted merely of the letters N. O.—*Union.*

WHAT THE GIRLS NEED.—Mrs. Ellis thus hints at the deficiency of English girls in household knowledge. The cap will fit our American young ladies, except that some of the latter have plenty of "frankness," and do not think it worth while even to show "mock-modesty." "The truth is, my dear girls, you want, generally speaking, more liberty and less fashionable restraint; more kitchen and less parlor; more leg exercise and less sofa; more making puddings and less piano; more frankness and less mock modesty; more breakfast and less bustle.

MOTHERS! MOTHERS! MOTHERS!
DON'T FAIL to procure *Mrs. Winslow's Soothing Syrup for Children Teething.* It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never-failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arise from teething or from any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

☞ None genuine unless the fac-similie of CURTIS & PERKINS, New-York, is on the outside wrapper.

Sold by Druggists throughout the world. Office No. 13 Cedar street, New York.

MEDICAL.

AYER'S CATHARTIC PILLS.
THE sciences of Chemistry and Medicine have been taxed their utmost to produce the best, most perfect purgative which is known to mankind. Innumerable proofs are shown in all these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel the disease. They purge out the foul humors which breed and grow Distempers, Stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to their whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agents below named are pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of numerous complaints.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S Pills and take nothing else. No other they can give you compares with this in its intrinsic value or curative power in your case. The best aid there is for them and they should have it.

THE GREATEST
MEDICAL DISCOVERY
OF THE AGE.
MR. KENNEDY, of Roxbury, has discovered in one of our common Pasture Weeds a remedy that cures

EVERY KIND OF HUMOR,
FROM
The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

One bottle is warranted to cure the worst blotches on the face.

One to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

Ono to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure sealy eruptions of the skin.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to surely salt-rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, MASS.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are more particularly liable. That most excruciating disease to an affectionate mother

NURSING SORE MOUTH,
is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to you husband and household.

In the more advanced stages of

CANKER,
extends to the stomach, causing

DYSPEPSIA,
which is nothing but canker on the stomach; then to the intestines and

KIDNEYS,
creating a sinking, gone feeling, and an indifference to the cares of your family.

Your stomach is

RAW AND INFLAMED,
your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the continuous field of the canker eats it up; then your complexion turns sallow and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;
Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and piling away their health, life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure," by the

MEDICAL DISCOVERY
you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

COMMERCIAL & FINANCIAL.

OFFICE OF THE DAILY SENTINEL, }
Thursday Evening, July 1, 1858. }

MONEY MATTERS.—There is no change to speak of in money matters. Exchange continues plenty, and currency rather the contrary. There is a moderate degree of activity in general business, and the Banks are discounting good business paper at 10 per cent. Exchange on the East and Gold selling at 1 per cent. Note Brokers rates 1½ to ⅔ per cent per month for well secured paper.

OUR MARKETS.

RECEIVED BY MIL. & MISS. R. R., July 1st.—413 bbls flour, 20,360 bushels wheat, 1,690 bus oats, 76 bus rye, 325 bus potatoes, 5 bbls eggs, 1 reaper, 1,540 lbs wool, 1,519 lbs sundries, 1 car stone, 3,750 lbs potash.

M. W. & S. R. R., July 1st—4,497 bus wheat, 1,723 bus oats, 145 bbls flour, 3,100 lbs wool, 687 lbs hides, 5,000 lbs sundries.

Mn. & Hon'n R. R., July 1st.—2,221 bus wheat, 1,874 bus oats, 1,760 lbs hides.

Our produce market has been more active to-day and prices a trifle lower. Receipts are somewhat larger, and the market more settled. Sales are much larger than yesterday, though not heavy. The wheat market opened moderately active this morning, and more of a disposition to operate on the part of holders was manifested than for some days past. Good club seems to have settled to-day at from 70 to 71c to store, the principal sales being at 70c. There is a great deal of damp wheat on the market, which moves slowly, at very low prices. The excessively warm weather which we have had of late, has caused a great deal of damage to wheat, by 'sweating' it, in places where it was not properly cared for, and hence the unusual amount of poor wheat in the market at the present time. Weather to-day, quite warm, with a heavy thunder shower in the evening. We quote to-day:

WHEAT—More active and lower; sinb 70a72c, No. 1 08 a69c, from common to choice. We note the following sales: 145 bags choice club to mill at 73c, 170 bags do at 72c, 600 bags good do at 71c, 2,300 bags fair extra at 70c, 1,000 bags choice No 1 at 69c, and 1,000 bags good do at 68c, 870 bags damp at 62½c, 141 bags do at 55c. Winter wheat remains without change; sales of 250 bags choice white winter at 86c, 122 do at 87½c, 100 bags fair do at 83c; 100 bags red winter at 75c, and 100 bags do inferior quality at 71c.

FLOUR—No sales. Market unsettled.

FEATHERS—Firm and rates unchanged. Schooner Glen Williams takes cats to Buffalo at 4½c, and the Schooner Wild Rover loads on owners account.

OATS—The ugh not so active, are in fair shipping demand, and prices about the same. Sales of 900 bags at 32c, and 200 bags at 31c.

RYE—In moderate demand at 58a61c. Sales of 300 bags at 59c.

BARLEY—Quiet at 80a86c.

CORN—In fair request to supply home demand at 48a49c for shelled.

POTATOES—Dull at 30a35c.

BUTTER—Heavy at 9a10c for fresh roll.

EGGS—Dull at 7a7½c by the bbl.

HIDES—In good request at 5¾a6c for green; 7a7½c for green salted; and 18a18½c for dry. Salted calf skins 10¼a11c.

SHEEP PELTS—Heavy wool pelts $1a$1 37; "shearlings" dullat 65c.

WOOL—Competition amongst buyers still exists, and prices are kept up to the top notch. We quote native to ¾ blood 22c to 32c in the street, and full blood Merino 34a34½c. Some of the principal dealers have withdrawn from the market. They will not pay the present prices. One extensive dealer has disposed of his stock, which he was about to ship, as he could do better by selling it here than shipping it to the East. We have been shown a despatch from New York this afternoon, saying that the "wool market is dull and unchanged."

NEW YORK MARKET.

NEW YORK, July 1.

FLOUR—Market less active and without important change; sales 10,000 bbls at 2 70a3 80 for superfine; 2 90a4 extra do, including small parcels, 3 85 for the former and 4 05 for the latter; 3 70a3 85 for superfine western; 3 90a4 40 common to medium extra do; 3 90a4 40 common to medium extra do, Genesee; 4 05a4 30 fancy do do; 4 35a5 10 for extra. Rye flour steady—sales at 3a3 50.

BUFFALO, July 1.

FLOUR—Dull; sales 900 bbls sour at 2 75a3 25.

WHEAT—Dull—Chicago spring unsaleable at over 70 for standard.

CORN—Steady and nominal at 60a61 for sound.

OATS—Lower; sales 5,000 bus at 30½ on the spot.

RYE—Not quoted.

WATER IS HIGH firm.

CANAL FREIGHTS—Dull.

LAKE IMPORTS—Yesterday; 2,000 bbls flour; 18,000 bus wheat; 48,00 bus corn; 8,000 bus rye.

CANAL EXPORTS—5,000 bbls flour; 75,000 bush wheat; 20,000 bush corn; 28,000 bush oats.

☞ Our Foreign Imports continue to show a gradual, and now very marked, decrease, compared with previous seasons, as will be seen by the following comparisons:

Week ending June 26th, 1858	$3,089,850
Corresponding week in 1857	3,154,113
" " 1856	4,243,931

If we make a comparison of the total imports, from the 1st of January to date, the difference is more striking—thus:

1856.	1857.	1858.
$105,935,694	$115,186,530	$58,997,020

MARINE INTELLIGENCE.

☞ The Salvor came in yester day morning with the bark Mary Stockton, lately ashore at South Fox Island. The Mary Stockton was loaded with wheat from this port, and was ashore on the 19th inst. By getting a sail under her, the pumps were able to clear her out, and keep her afloat while coming up. Her cargo of course is a total loss, it being all pumped out with the water. It was insured in the Buffalo Mutual for $8,500, which will, we presume, cover the whole loss. The vessel is said to be not seriously damaged, though to what extent she may be can hardly be told until on the dry dock. It is thought $2,000 will cover the expense of getting her off and the necessary repairs. The Stockton is owned by A. R. Cobb & Co., Buffalo, and is six years old.—*Chicago Press & Tribune*, July 1st.

NEW YORK & ERIE RAILROAD.

THE New York & Erie Railroad Company have earnestly endeavored during the past ten month, to establish and maintain uniform and remunerative rates of traffic by the four great lines which connect the Atlantic cities and the West. Having failed in this, and believing it to be injudicious and improper to influence freight by the issue of free papers, by the employment of runners and solicitors, or by any other underhand means, the Company, rather than resort to such means, have determined to reduce the rates on and after Monday June 14, as follows:
